

**CSC 3210 – Assignment #1b**  
**Summer 2013**  
**due Tuesday, June 18<sup>th</sup>, 11:59 pm**

**Objective:** To become familiar with the `printf` function and to compare assembly code against C code.

1. Write a SPARC assembly program to print out “Hello World my name is \_\_\_\_\_”
2. Compile and run your code
3. Compare your .s file with the one generated from Assignment #1a
4. Submit your .s file to the TA’s account via the submit script (folder is called hw1b).
5. Submit a short write up for your comparison to the TA via email –
